***WOVEN WIRE GRILLES & INSERT PANELS***

## SOLID NORTH AMERICAN HARDWOOD LATTICE INSERT PANELS

### Standard

Red Oak, Maple or Cherry

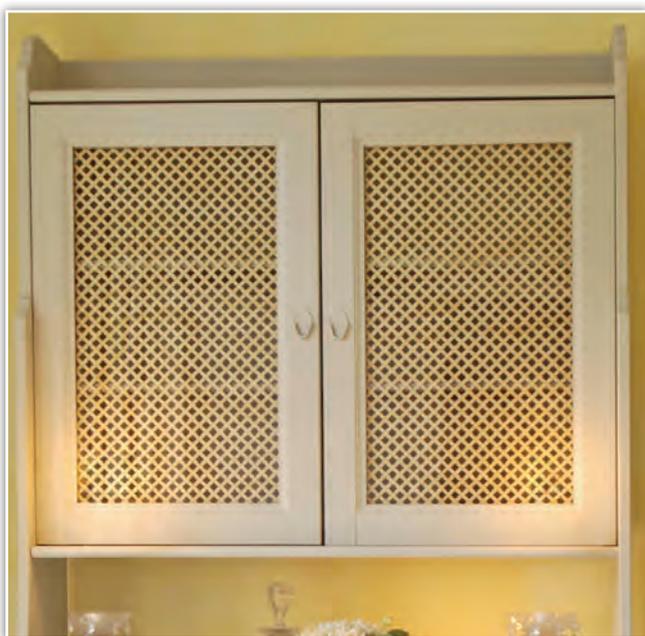

Available in square or diagonal patterns, these inserts are ideal for cabinet door inserts, residential and commercial casework, wine cabinets, closet storage systems, entertainment centers & ceiling inserts. Sanded & ready to finish.

**Panel size:** 35-3/4" x 24" x 3/8" thick.  
**Cell size:** 1" x 1" size, **Slat size:** 3/8"

(Furniture Grade Quality)

PART #	FINISH	PATTERN
SWLD3524-RO	Red Oak	Diagonal
SWLD3524-MP	Maple	Diagonal
SWLD3524-CH	Cherry	Diagonal
SWLS3524-RO	Red Oak	Square
SWLS3524-MP	Maple	Square
SWLS3524-CH	Cherry	Square

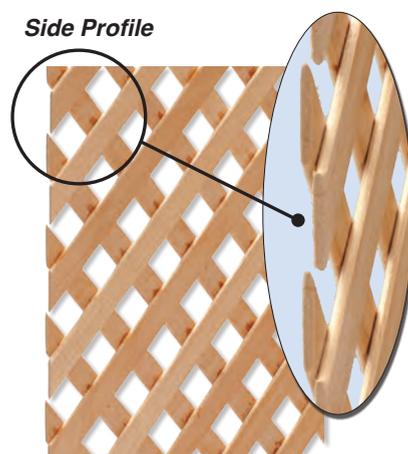

### Mini

Red Oak, Maple, Cherry, or Alder

Available in a diagonal pattern, this insert makes a unique accent door in kitchen cabinets, dining room or bedroom furniture. It can also be used as a ceiling insert panel for an unusual wood grid look. Sanded & ready to finish.

**Panel size:** 47-1/4" x 23-5/8" x 1/8" strip thickness.  
**Cell size:** 1/2" x 1/2", **Slat size:** 1/2"

(Furniture Grade Quality)

### **PAINTING:**

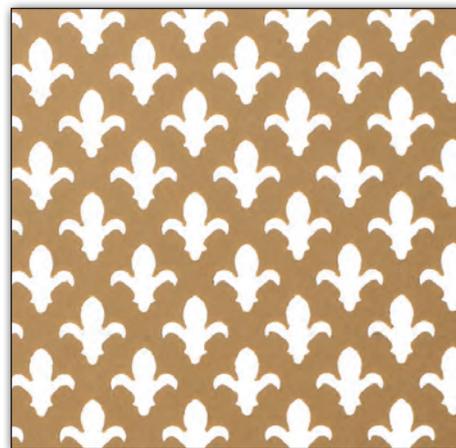

- 1) You *must* prime the panel before painting.
- 2) When painting the MDF panels, it is recommended to use a roller or spray paint. Using a paint brush is more difficult and tends to cause brush marks.
- 3) The MDF panels may be painted on both sides if desired, for they have smooth surfaces.

*\* Opening represents air flow. The larger opening the more air flow. For example radiators may want larger openings & screen applications may want less.*

# WOVEN WIRE GRILLES

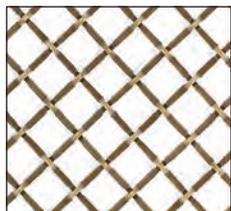

Our grilles offer a creative option for fine period furniture ranging from English Country to French Provincial. For screening those areas which may compromise the aesthetics of a home or office environment, our close mesh grilles are available in a variety of designs that present an attractive fascia. Available in electroplated metallic finishes and powder coated colors to suit any application. Standard sheet sizes are 2' x 6', 3' x 4', and 4' x 6'. Custom sizes available, please inquire.

# WOVEN WIRE GRILLES

## CRIMP TYPE

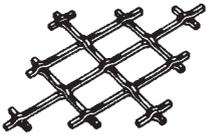

SINGLE CRIMP

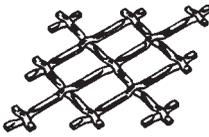

INTER-CRIMP

PRESS CRIMP

FLAT CRIMP

\* Aviary or Chicken wire is also available - see twist crimp

Our decorative wire grilles are manufactured from various gauges of steel wires that are crimped woven to create tile designs. We start with round thicknesses. We then crimp the wires using custom machinery. See the 4 crimp styles on this page.

## Recommendations For Cutting Grilles

- Step 1:** We suggest a template be made from heavy paper or cardboard. Measure the routed opening on the back of the door into which the grille is to fit. Deduct 1/8" from each dimension for clearance.
- Step 2:** Place the template on a flat surface large enough to hold the grille material. Lay the grille material over the template and locate it so the design is balanced from top to bottom and from side to side, with wire running into the corners.
- Step 3:** Using a "permanent" ink marker, mark the grille wires corresponding to your template and cut using heavy duty shears or tin snips.

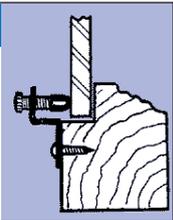

\* Open Area Specs Available Upon Request

## PANEL RETAINERS

Bronze finish on Steel • Overall Size: 3/8" wide x 1-3/16" long screws included  
Screw adjustable, secure holding & quick removal of metal grilles. Reversible to accommodate varied glass thicknesses and door mortises. 7/8" vinyl tipped screw tightens and adjusts without harming glass.

**PART #**  
**SH-302**

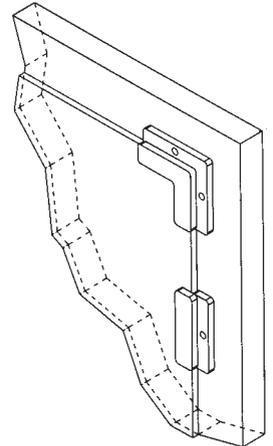

## NO-ROUTE GLASS / PANEL RETAINING CLIPS

- Designed to attach glass or decorative panels to doors without routing.
- Can be screwed or stapled into place.
- Straight and corner pieces available.
- Available for 1/8" or 3/16" thick panels.

PART #	COLOR	MTL THICKNESS	TYPE
R21-1806BR	Brown	1/8"	Straight

## 3 FT. X 4 FT. SHEETS

Our stainless steel wire mesh offers endless design options for applications ranging from furniture making and ceiling tiles to infill panels and room partitions.

SWM-28

8 Patterns to choose from!

SWM-46

SWM-236

• Made from 304 Stainless Steel.

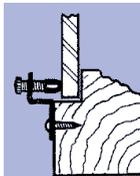

• 3 ft. x 4 ft. sheets can easily be shipped via UPS.

### Grille Panel Retainers

Bronze finish on Steel

- Overall Size: 3/8" wide x 1-3/16" long screws included

Screw adjustable, secure holding & quick removal of metal grilles. Reversible to accommodate varied glass thicknesses and door mortises. 7/8" vinyl tipped screw tightens and adjusts without harming glass.

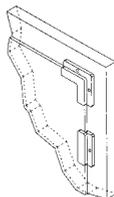

**PART #**  
**SH-302**

SWM-9

### No-Route Glass/Panel Retaining Clips

- Designed to attach glass or decorative panels to doors without routing.
- Can be screwed or stapled into place.
- Straight and corner pieces available.
- Available for 1/8" or 3/16" thick panels.

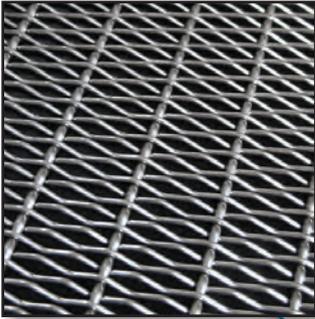

PART #	COLOR	MTL THICKNESS	TYPE
R21-1806BR	Brown	1/8"	Straight
R21-1806CL	Clear	1/8"	Straight
R21-1807BR	Brown	3/16"	Straight
R21-1807CL	Clear	3/16"	Straight
R21-1804BR	Brown	1/8"	Corner
R21-1804CL	Clear	1/8"	Corner
R21-1805BR	Brown	3/16"	Corner
R21-1805CL	Clear	3/16"	Corner

### Cutting Instructions:

- 1 Material can be cut using wire cutters, bolt cutters and any saw with a metal cutting blade, depending on the gauge of the wire. Each design varies with wire gauge and crimp style.
- 2 Strongly recommend that you make a template of the exact size the grilles will be cut to - heavy cardboard or scrap plywood works the best.
- 3 For smaller mesh openings (under 3/4"), plan on 1/2" spacing between any pieces they may be cutting out of standard sheet sizes. For mesh openings 3/4" and larger, plan on not less than 1" of space between each cut.

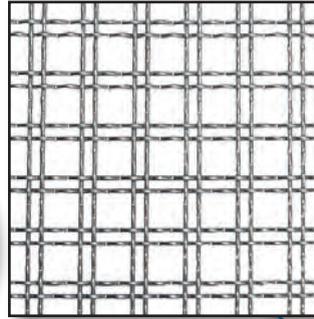

## 3 FT. X 4 FT. SHEETS

*Larger Sheets Available Up To 4' x 8'. Minimum Order of 100 sq. ft., Please Inquire.*

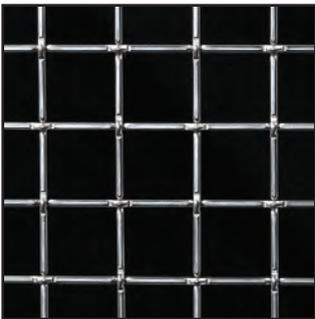

### SWM-56

- Single crimp
- Round wire
- .054" wire size, .64" x .06" mesh size. (pattern runs in 4' direction)

- Round wire
- .063" wire size, 17/64" mesh size.
- 66% open area.
- Weight = 9 lbs. each.

### SWM-46

- Press crimp
- Round wire
- .047" wire size, .35" x .06" mesh size. (pattern runs in 4' direction)
- 49% open area
- Weight = 11 lbs. each.

# STAINLESS STEEL WOVEN WIRE CLOTH

Stainless steel wire cloth provides versatility, stability, robustness and optical properties, making it an ideal material when designing spaces, surfaces and other functional elements for both internal and external applications. Uses include wall cladding and room dividers, infill panels, ceiling tiles, signage and sun protection.

## PRODUCT FEATURES:

- 316 Stainless Steel can be used indoors and outdoors.
- Lightweight & Easily Trimmable
- Flexible enough for radius applications
- 3' x 4' sheets are easily shipped.

\*\*PLEASE SPECIFY VERTICAL OR HORIZONTAL PATTERN WHEN ORDERING.

Material must be inspected upon delivery - all claims for damages must be reported within 48 hours of receipt.

**Sample Kit Available**  
100+ 4" x 4" patterns

# "ILLUSIONS" GLASS FILM OVERLAY

Peel Backing  
Before  
Applying

Glass Film Overlays may be applied to any glass, plastic\*, or mirrored surface; enabling a wide variety of design possibilities. It may be used on panels, partitions, display cases, signage, mirrors, windows, or doors. For permanent or temporary application – the choice is yours! In addition to interior decorating applications, glass film overlays are the perfect answer for producing stand out displays and exhibits.

*\* Due to the nature of plastic materials, we do not recommend applying films which have adhesive to plastic panels if exposed to excessive heat or direct light (such as strong exhibit lighting) or excessive heat will occur.*

## REGULARLY STOCKED PATTERNS -

- STOCKED IN 3 FT. WIDE X 164 FT. LONG ROLLS (492 Square Feet Per Roll) *(unless otherwise noted).*
- MUST BE PURCHASED IN MULTIPLES OF 3 SQ. FEET *(unless otherwise noted).*

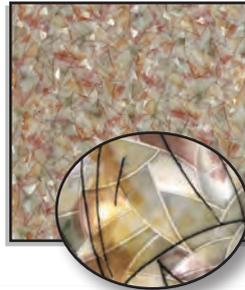

*If unsure of pattern desired, we urge you to request a sample. Material which has been cut and/or used in non-returnable.*

### NOT CLEARLY VISIBLE:

Objects directly behind film surface are not clearly visible. Objects are no longer visible at three (3) feet.

#### MOSAIC

- Material: Approx. .33mm Thick PVC
- Pattern Repeat: 12-13/32"  
(Lengthwise +/- 1/4")
- This pattern is a slightly textured film made up of various sized triangles in pastel shades of pink, green, lavender & yellow w/some scattered black outlining

**PART #**  
**GF-232**

#### SHEET OF ICE

- Material: Approx. .33mm Thick PVC
- This pattern is a clear textured film

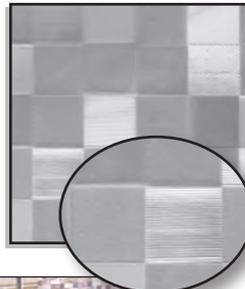

**PART #**  
**GF-320**

### VISIBLE WITH DISTORTION:

Objects directly behind film surface are visible, yet distorted. Most patterns in this group have decreasing visibility. See specific pattern for this information.

#### PIXELS

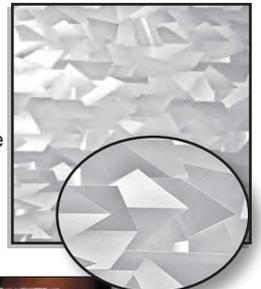

- Material: Approx. .34mm Thick PVC
- Pattern Repeat: 7-7/8"  
(Lengthwise +/- 1/4")
- Clear textured film with small squares which give a mirror effect

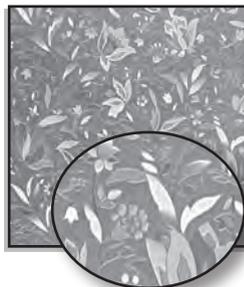

**PART #**  
**GF-137**

#### ICICLES

- Material: Approx. .33mm Thick PVC
- Pattern Repeat: 11-5/8"  
(Lengthwise +/- 1/4")
- This pattern is a clear textured film
- At 3 ft. distance objects are no longer visible

**PART #**  
**GF-325**

#### SPRAY OF FLOWERS

- Material: Approx. .34mm Thick PVC.
- Pattern Repeat: 11-5/16"  
(Lengthwise +/- 1/4").
- Clear textured film with an embossed floral design
- At 6 ft. distance objects are no longer visible

**PART #**  
**GF-263**

# "ILLUSIONS" GLASS FILM OVERLAY

Peel Backing  
Before  
Applying

## REGULARLY STOCKED PATTERNS -

- STOCKED IN 3 FT. WIDE X 164 FT. LONG ROLLS (492 Square Feet Per Roll) *(unless otherwise noted)*.
  - MUST BE PURCHASED IN MULTIPLES OF 3 SQ. FEET *(unless otherwise noted)*.
- If unsure of pattern desired, we urge you to request a sample. Material which has been cut and/or used in non-returnable.*

### CLEARLY VISIBLE:

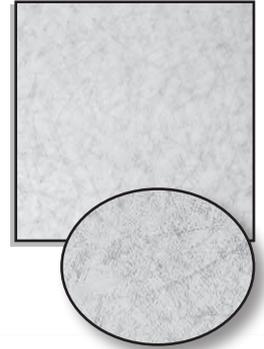

Objects beyond film surface are visible, regardless of distance

### WHITE FROST

- Material: Approx. .11mm Thick Polyester
- Frost is white & clear

PART #  
GF-306

## Features

- ✓ Improves the visual effect of all transparent applications & creates designer accents on the surface to which it is applied.
- ✓ Reduces glare when applied to windows.
- ✓ Prevents glass from shattering should it be broken.
- ✓ Produces a physical awareness of partitions, preventing possible breakage.
- ✓ Creates a level of privacy by reducing visibility beyond surface to which it is applied (not applicable to all, see specific pattern for this information).
- ✓ Use as a border or full surface accent.
- ✓ Cleans with mild soap and water.
- ✓ Trims to size with scissors or a utility knife.
- ✓ Suitable for bathroom applications (must be applied to exterior of shower doors).
- ✓ Applies to glass or plastic\* surfaces in the same manner as a tinting film.
- ✓ Product may be removed from surface applied to; however, may not be reused.
- ✓ Product produced with a UV protective coating. This coating protects the film itself from damaging UV rays. However, unlike solar films, this coating does not protect fabrics beyond it.
- ✓ Smooth or textured surfaces.
- ✓ Patterns with a smooth surface are produced from .08mm or .11mm thick polyester (see specific pattern for its thickness).
- ✓ Patterns with a textured surface are produced from PVC (see specific pattern for its thickness).
- ✓ May be applied to exterior windows; however, on the interior side only.
- ✓ **FOR INTERIOR APPLICATIONS ONLY!**

## INQUIRE FOR INSTALLATION INSTRUCTIONS

## INSTALLATION TOOLS

### BIG BLUE LARGE BREAKAWAY BLADE UTILITY KNIFE

- Blue plastic casing
- Includes one blade with 7-point segments
- Replacement blades available

#BBK-80K

#### Replacement Blades:

- Must be purchased in multiples of 12 pieces
- #BBK-80B

### DIECAST UTILITY KNIFE

- High quality pewter die casting handle
  - 10-steps positioning lock
  - Lock blade compatible, each furnished with one blade
- #DCB-219K

### RAZOR BLADE SCRAPER

- Yellow plastic casing
  - Includes one blade
  - Replacement blades available
- #S98-20S

#### Replacement Blades:

- Must be purchased in multiples of 5 pieces.
- #S98-SB5
