Finished

Our **Rustic Beams** allow you to bring back that "Old World Style" and to any room with their rustic warmth and charm. These beams are lightweight and easy to install.

Rustic Beams were fallen logs, hewn into shape using a broad axe. Forging ahead and settling the new frontier, early settlers did not have access to mills and machinery. They shaped the beams used in their homes and business by hand, using their axes and small tools. This resulted in a beam with rugged texture and character.

Unfinished Beam Program

Create your own color

Simply make your selection from the many gel stain finishes that best suits your room.

Brush on your stain and enjoy the Beauty

Why limit your choices of color?

Sample piece
Approx. 6"-8"

MINWAX GEL STAIN

One can of MINWAX Gel Stain will stain approximately 5 to 8 Beams (13 ft. beams).

Visit your Home Centers for endless color selections

Hint:
Water Base Gel Stains have a low gloss (flat) appearance.

Exterior Use:

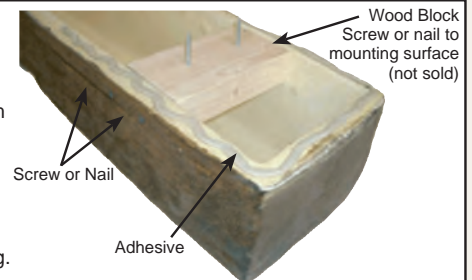

It is Recommended when BEAMS are used for Entrance Ways or Over Terraces that an outdoor deck stain is applied.

- High Density Polyurethane.
- Light weight & Easy to install.
- Coordinating corbels and accessories available.
- Virtually impossible to distinguish from real wood.
- Will not rot, warp, decay or split.
- Our beams can be used indoors and outdoors. When using outdoors, a UV coating must be applied to prevent the pre-finished product from fading over time.

EASY INSTALLATION

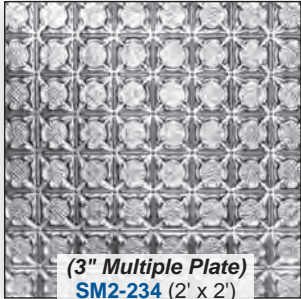

Instructions:

1. Secure a wood block to the ceiling every 4-5 ft.
2. Slide the opening of the beam over the wooden blocks.
3. Place a line of silicone caulk on the beam.
4. Attach two screws/nails to the side of the beam. This will secure the beam to the ceiling.

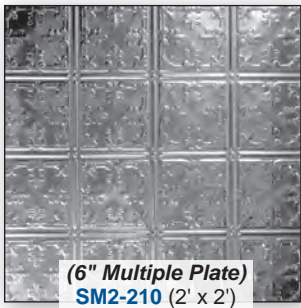

PREMIUM DECORATIVE STAMPED STEEL CEILING PANELS

Our New Stamped Ceiling Panels are an exciting interior mix of texture and nostalgia. Patterns drawn from the past enliven contemporary and traditional styling with their finely crafted detail.

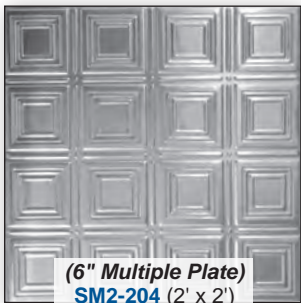

(3" Multiple Plate)
SM2-234 (2' x 2')
SM4-234 (2' x 4')

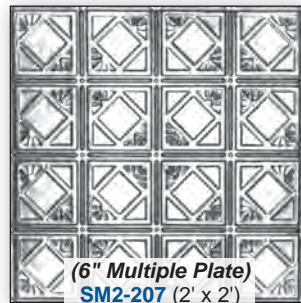

(6" Multiple Plate)
SM2-210 (2' x 2')
SM4-210 (2' x 4')

- Lightweight, non-combustible panels and accessories are manufactured from tin free steel 30 gauge, .010 thick.
- Chromium treated for superior paint retention.
- When material is properly coated, little or no maintenance is required and cleans with soap and water.
- Ceiling panels and cornices are shipped uncoated to allow custom on-site finishing.
- To prevent corrosion, panel must be coated.
- Recommended paints are RUST-O-LEUM to maintain the natural metal appearance, semi-gloss or high gloss oil base paints.
- **DO NOT USE WATER-BASED PAINT.**
- **HEAVY DUTY SAFETY GLOVES SHOULD BE WORN WHEN HANDLING PANELS AND CORNICES - EDGES ARE EXTREMELY SHARP.**
- **DUE TO PRODUCTION DYE LOTS, FINISH MAY VARY ON COLORED TILES & CORNICES.**

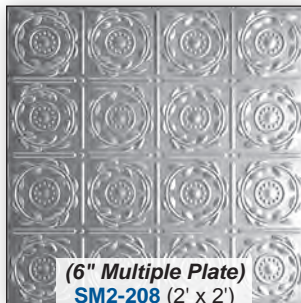

CUSTOM ORDERS
• If acoustics are a concern, all 2' x 2' tiles are available perforated. Custom order - 6 week lead time.

Don't Replace
RE-FACE

Thermoplastic PVC Ceiling Tiles
2' x 2' & 2' x 4'
.030" Thick Lay-In or Glue-Up Tiles

- A cost efficient and unique alternative to real metal
- **Class A Fire Rated**
- High Impact
- Chemical and scratch resistant properties

COMMERCIAL APPLICATION
LAY-IN TILE
Boston tile shown in
Cracked Copper finish

Our **Lay-In Tiles** are designed to install over existing tiles. They work with standard T-grid suspension systems. **It is recommended that a standard tile (old or new) be used on top of our 2' x 4' lay-in tiles to hold them in place.** The 2' x 2' size would produce no sag but the 2' x 4' might require a small amount of panel adhesive to eliminate this.

There are no special tools or skilled labor required for installation. In fact all tiles can be easily fabricated using a simple utility knife or scissors.

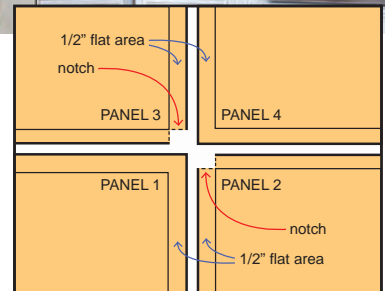

These extremely lightweight panels have an impervious waterproof surface, are mildew resistant and will not harbor germs or bacteria. They are low maintenance and can be washed with mild soap and water.

Do Not Use Abrasive Cleaners!
You will never have to replace again.

RESIDENTIAL APPLICATION
GLUE-UP TILE
Boston tile shown in
Cross Hatch Silver finish

Our **Glue-Up Tiles** are to be adhered directly to an existing ceiling. They are designed with an overlap system to make installation easy.

When overlapping four MirroFlex panels, it is necessary to cut a 1/2" notch in panels 2 and 3 to avoid a bulge where the panels meet.

2' x 2' Polyurethane primed white drop in ceiling tiles ready to paint oil based preferred can use latex. Do not use lacquer based paint.

This product does not contain any mineral fibers, formaldehyde or cancer causing agents

COMMERCIAL SUSPENDED ORNAMENTAL PLASTER CEILING TILES

- 2 ft. x 2 ft. lay-in panels for use with standard commercial 15/16" T-bar suspension grid. Grid must be suspended by 12 gauge pre-straightened steel wire at 4 ft. on center.
- Cuts as easily as dry wall for down lights, sprinklers and vents.

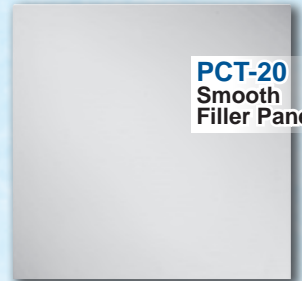

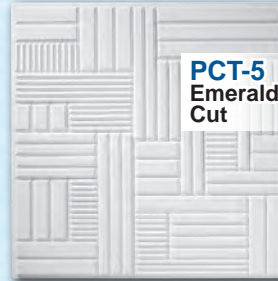

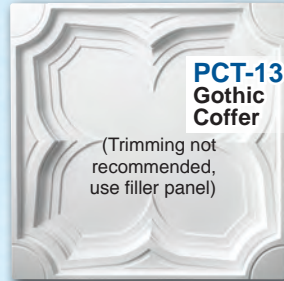

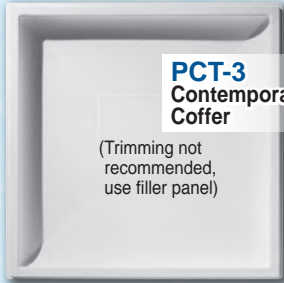

- No need for hold down clips & no rattling in the grid.
- Tested in accordance with ASTM-E84. Results were zero smoke spread, zero flame spread and zero fuel contribution.

These tiles are composed of gypsum cement, glass fibers and other non combustible aggregates. All tiles are finished with a ceiling white satin latex. A nominal 1/2" thick, and consistently weigh only 2 - 2.25 lbs. per square ft. The tiles satisfy ASTM Spec.C-635 for L/360, based on hanger wire at 4' on center. The relief on the tiles varies from 1/4" - 3" according to the design.

24 pc. minimum

Class A Fire Rating;
will not sustain combustion
or release toxic fumes.

ACRYLIC CEILING PANELS

SIX DESIGNS • 2' x 2' or 2' x 4' x .080" TILES

Bring the look of the outdoors inside your home or business. These tiles transmit up to 70% of available light ensuring both a bright space, and high style!

- .080" thick non-yellowing acrylic.
- Environmentally responsible using 99.9% VOC-free inks and 100%  acrylic!
- High light transmission lens material.
- High impact resistance.
- Approximately 1/2 lb. per square foot.
- Use with fluorescent light sources. Best results are achieved with full spectrum lamps.
- Supplied with protective film on one side.

EASY TO INSTALL!

- Use existing grid systems.
- Panels drop right in.

Used with all warm white lamps

Summer Sky

Used with all cool white lamps

See page 738 for additional Luminous Ceiling Tiles

MIRROFLEX™ LIGHT DIFFUSERS

MirroFlex™ Light Diffusers are designed to replace existing prismatic panels in suspended ceiling systems. Our diffusers are ideal for office work environments because the light is directed from side to side and does not shine downward onto computer stations.

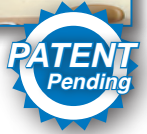

The panels are tegular which means the embossed part of the design is lower than the suspension grid and the 4 edges are flat to fit nicely into the grid.

2' x 4' Sheets
(23-5/8" x 46-1/2")
Tolerance +/- 1/4"

.030"
Thickness

PRODUCT FEATURES:

- Thermoplastic Panels
- Finish: Frosted Clear
- **Class A Fire Rated**
- 30% more light at eye level.
- Brighter light around perimeter.
 - Softer light at desk height.
- Lightweight approximately 1.17 lbs each.

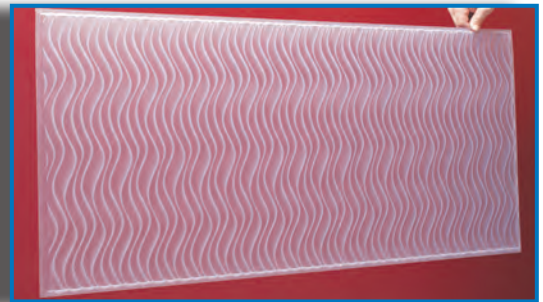

APPLICATIONS:

- Offices
- Hallways
- Schools
- Homes
- Medical Facilities

Note: We offer the complete line of **Focal Point** products. If you do not see the **Focal Point** part you are looking for, Please inquire.

FIBERGLASS DOMES WITH ATTACHED LIGHT COVE

We introduce a dome with a manufactured light cove as one lightweight fiberglass unit that's easy to install and uniquely designed with a hidden light cove feature. All cove domes include white rope light - 25,000 hour life. Supplied with a light channel (or cove attached to domes) simply drop in the rope light.

The cove has a flat surface that can be left plain for a contemporary look or allows for the addition of flexible millwork designs. This allows the dome to blend with the decor of the home.

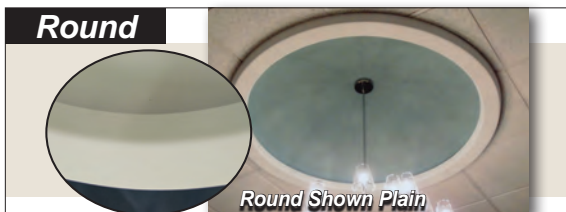

Additional Decorative Millwork options available below. Pricing includes domes and factory installed millwork, *but not painted.*

ROUND DECORATIVE BOW & SWAG COVE DOME (Pre-Molded)

PART #	OUTSIDE DIAMETER	ROUGH OPENING	OPENING DEPTH	RIM WIDTH	MAXIMUM MEDALLION SIZE
98521	78-5/8"	75-1/2"	15-1/2"	1-1/2"	20"

PLAIN COVE DOMES

CHANDELIER LIGHT LIFT

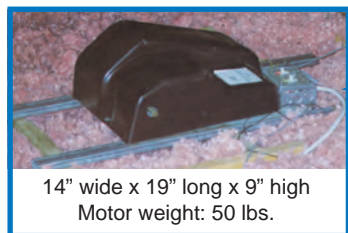

Now available: **A motorized lift system for your chandelier.** Dangerous ladders and expensive cleaning services are things of the past as chandeliers are quickly and safely lowered within easy reach from the floor for cleaning or replacement of bulbs.

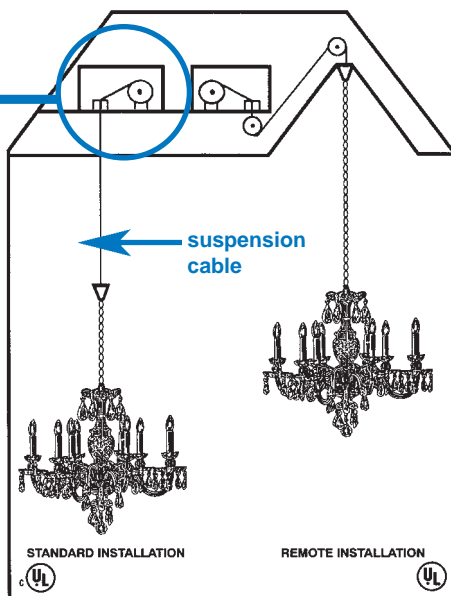

Just Turn The Key!

Our new light lifts come with a special key switch, which can be conveniently installed in any new or existing wall. Releasing the key stops the chandelier at the height you choose. It's that easy!

14" wide x 19" long x 9" high
Motor weight: 50 lbs.

Place your order for a **"Standard Installation"** to be installed directly overhead; or....

....special order a **"Remote Installation"** unit for when you do not have enough overhead room, or for a sloped ceiling.

STANDARD INSTALLATION LIFTS

PART #	MAX. WEIGHT	MAX. WATTAGE
LL200	200 lbs.	1560 Watts
LL300	300 lbs.	1560 Watts

All "Standard Installation Lifts" include 120-volt motor with mounting brackets, all installation hardware, key switch with wall plate, 35 feet of suspension cable, and complete installation instructions.

For longer cable lengths, higher wattages, greater weight capacities, or remote installation kits, please inquire.

It is recommended that all electrical products be installed by a licensed electrician.

Ceiling Medallions
