CARVED PIERCED MOULDINGS

2 ft. lengths, available in Hard Maple, Red Oak, and Cherry.

Our carved wood pierced mouldings have an innovative dowel system for creating a continuous run of multiple pieces.

Apply wood glue to both ends of the dowels (sold separately). Insert into pre-drilled holes on either end of the two pieces to be joined. Space pieces proportionate to the design repeat. All pieces are sanded and unfinished - ready for staining or painting.

The dowels blend into the pattern for a consistent, uninterrupted look. Holes on either side of the moulding can be plugged by gluing the dowels in place, then cut to fit and sand flush for a continuous look.

THE WOOD PLUS COLLECTION

Mouldings are available in 8 ft. lengths.

The design & detail of these mouldings is made from a mixture of polymers, contoured onto a soft wood substrate similar to pine. This results in a product with incredible detail while adding minimally to the cost.

- *Installs with standard woodworking tools.*
- *Can be painted/stained, using a non-penetrating gel stain.*
