Exterior Stucco Mouldings & Accessories

ACROCORE
Exterior Mouldings, LLC

MADE IN USA

EPS (Expanded Polystyrene)

Lighter. Stronger. Smarter
Any Profile... Any Size... You Decide...

COMING SOON
Fall 2013

Introducing Acrocore's™ line of exterior EPS mouldings. Unlimited designs of lightweight stucco moulding trim, sills, bands, quoins, keystones, corbels and more. Our wide range of products are enduring, labor saving and extremely cost-effective. Custom profiles made to order are also available.

Residential Profiles

Double coated flexible
cement faced EPS
foam mouldings &
accessories

**Ordinary Cement Faced
EPS Mouldings**

**Double Coated Flex
Cement Mouldings**

Technology

Ordinary cement faced eps mouldings are fragile and brittle. They do not absorb impact as well as our Double Coated Flex Cement Mouldings.

Standard 8 ft. lengths are available in sizes ranging from 5" to 24"

Commercial Profiles

*Massive unfinished
EPS foam profiles
for easy shipping &
on site finishing in
hundreds of readily
available stock &
custom profiles*

Exterior Millwork by Fypon

EXTERIOR MILLWORK

Exterior Louvers/Gable Vents

Round, Octagon, Cathedral & Triangle Louvers

Exterior Millwork
High Density Polyurethane

FEATURES AND BENEFITS

- 45-degree angled slats on functional louvers protect interiors from precipitation.
- Primed with ultraviolet stable coating.
- A variety of shapes and sizes complement most architectural styles.
- Unlike wood, **Fypon®** louvers resist insect infestation and will not rot, warp, decay or split.
- Easy installation.

FUNCTIONAL LOUVERS

Accent exterior sidewall applications, but also have open slats that allow for air ventilating. Includes a screen backing to keep insects out.

NOTE: If you are ordering a Functional Louver, your rough opening should be approximately 2" smaller around the entire perimeter of the louver.

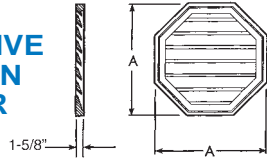

All louvers can be ordered with siding rout for a neat professional finish. Please specify upon ordering. (Rout is a flat 5/8" x 5/8" groove).

DECORATIVE LOUVERS

Have closed non-ventilating slats that do not allow air to pass through. They are used for decorative purposes only to accent exterior sidewall applications

Pitch Information

Pitch indicates that incline of a roof as a ratio of the vertical rise to the horizontal run. It is properly expressed as X distance in 12 inches.

For example: A roof that rises at a rate of seven inches for each foot of run is designated as having a 7/12 pitch.

NOTE: If you are ordering a Functional Louver, your rough opening should be approximately 2" smaller around the entire perimeter of the louver.

All louvers can be ordered with siding rout for a neat professional finish. Please specify upon ordering. (Rout is a flat 5/8" x 5/8" groove).

USING CORROSION-RESISTANT FASTENERS AND PL PREMIUM ADHESIVE

Always use corrosion-resistant mechanical fasteners (nails or screws) and PL Premium Adhesive when installing Fypon Products. This combination provides a secure, long lasting bond. Countersink all fasteners about 1/8" and fill with exterior grade white spackle. If desired, sand any minor imperfections and topcoat with a quality exterior latex or oil base paint. Fypon exterior millwork installations should be finished using a quality, exterior grade silicone caulk to prevent water infiltration behind siding, windows and doors. Some exterior millwork installations, in particular new construction (before siding is applied) may require a J-channel and/or flashing to prevent water infiltration. Installers must determine which installation technique is best for the specific situation.

IMPORTANT: A urethane base adhesive such as PL Premium Adhesive must be used on all joints. See page 965 to order PL premium Adhesive, **ADH1**.

MANUFACTURER	PART #	MATERIAL	DIMENSIONS		
			A	B	LENGTH
AMERICAN PRO	PVM-49	PVC	3-5/8"	9/16"	16 Ft.

Matches AZEK# AZM-49

MP-25-ADH The "Original" Hybrid Formula

MP-25-ADH is a high performance, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. MP-25-ADH cures rapidly when exposed to atmospheric moisture to form a durable bond.

- Use as adhesive or filler.
- Eco-friendly, low VOC's.
- Fast cure.
- Paintable.
- Non-yellowing.

PART #
MP-25-ADH

***US Welbuilt is proudly manufactured from recycled high density polystyrene. Must be painted with an exterior UV stabilized paint.**
